Marybeth,

I made a site visit to the alternative site on October 26, 2009. The boat landing located off of the McKown Pt. Rd. is a small landing that is in the Town of Boothbay Harbor. The landing only contains temporary parking spots and is directly adjacent to a private pier. The launch ramp itself is 10 feet wide and it seems it would be quite a challenge to put in a boat of any size. If you have any other questions about the site let me know.

I think an e-mail would be good for now - thanks.

Marybeth,

I made it to the site yesterday to take some photos. I put the photos in the BEP appeal file in the town file. How would you like me to write up the information on the site for you? Would you just like an email with a site overview or something for formal?
